

Developmental Continuum Procedures

1. The Creative Curriculum Developmental Continuum shows the developmental steps children ages 3-5 go through for each 50 goals and objectives.
2. Become familiar with the Creative Developmental Continuum. It is a valuable tool for planning your program and individualizing the Curriculum for each child.
3. Staff will use a variety of developmentally appropriate early childhood education strategies to promote and support children's educational process based on observations and on-going assessment of each child.
4. Use Teachers Guide to Creative Curriculum Developmental Continuum to help implement an ongoing assessment process.
